Thank you for choosing Jamison Studios for your photography needs. After 25 plus years of business, we are choosing to release our collection of negatives. Since we have not used film for over 7 years it is time to clean out our storage space. We are **NOT CLOSING EITHER LOCATION** just offering for you to keep and archive your own negatives.

If you would like to purchase them, call the studio and arrange to have them sent or picked up in either location. With the release of the negatives from your session, feel free to archive them, put on a DVD, a CD, or print from them. We will continue to offer these services, and will be happy to help you with whichever method you choose. Also available for your convenience is our video camera and light table set up that you may use to view your images as positive images on a monitor, this may be useful in editing the ones you would like to have printed. Negatives will be available for a limited time call for pricing.

Thanks so much for supporting our business this past 25 years and please remember us as we are here to help you in all of your photographic needs for the next 25 years.

Sincerely,

Jon Jamison and Staff
Jamison Studios
